Statistics

(Based on 2018 year-end data)

Total tests performed:
4,163,036

Total number of health fairs: 314

Health fair patients served:
20,200

Total phlebotomies performed: 1,549,689

Total Surgical Case: 37,020

Total Cytology Cases: 3,246

The laboratory is accredited by the College of American Pathologists every two years. This is in addition to the inspections by the FDA, FAA and State Board of Health at each hospital. PHL also takes part in the TJC inspections, which are completed every two years at each hospital.

PHL performs testing for all nine Parkview hospitals, as well as Parkview Behavioral Health, Parkview Heart Institute, Parkview Cancer Institute, Parkview Warsaw ED and more than 300 physician offices in northeast Indiana and northwest Ohio. The laboratories also complete testing for 39 draw sites, 85 nursing homes, three juvenile homes, five group homes and many other clinical clients.

Additionally, PHL participates in many community benefit programs, including: Matthew 25, Healthy Steps, Wolf Lake and Huntington County Free Health Clinics, Focus on Health, Heartbeats and other community and company health fairs, MAP Program, Parkview Wellness, Mirro Research and Fort Wayne Children's Zoo (animal testing).

The laboratory aids in 70 – 75% of all patient diagnoses.
